The gas springs assist with the lifting of the top lid. To prevent injury and damage, DO NOT allow the lid to free fall, replace gas springs when pressure weakens.

OPTIONAL COMBINATION LOCK

- The KIDDE combination lock is a programmable keyless push button lock.
- The knob turns 90 degrees to lock or unlock. The lock can stay unlocked.
- A lock housing is provided to protect it from the elements. The lock is pre assembled in the lock housing. Installed using tamper proof screws.
- Changeable combination. Made for outdoor use.
- There is NO master combination that CAN UNLOCK a programmed combination. Please record and remember your combination before installing the lock or we can program the combination for you and install the lock..

The locking option expands the performance of the bin. Use your judgement and wit to adapt this alternative to best suit your needs.

LIMITED WARRANTY

The warranty is extended solely to the original purchaser for a three years period from date of purchase against defects in material, parts and workmanship under normal use. The warranty does not cover theft, vandalism, negligence, tampering or improper use.

The Metrobox Company reserves the right to assess the nature of the defects within the warranty period and the determine the best course of action to remedy the defect. This warranty excludes scratches, dents, etc caused by wear and tear under normal use or color fading due to exposure to the elements over time. Specification subject to change without notice.
